

GENERAL INFORMATION

STICK-IT Organic™ is a proprietary blend of terpene polymers and emulsifiers designed for use with pesticides and soluble fertilizers. This unique chemistry causes **STICK-IT Organic™** to form an elastic film that keeps the enclosed chemicals in contact with the plant surface. This film reduces pesticide and nutrient loss and often enhances activity of those chemicals. In addition, the **STICK-IT Organic™** film improves retention of pesticides and foliar feeds on plant surfaces even during rain or sprinkler irrigation. **STICK-IT Organic™** will not foam, freeze, or clog nozzles, and may be applied by aircraft or ground sprayer. **STICK-IT Organic™** requires at least one hour of sunlight for the film to set. Therefore it must be applied during daylight, and at least one hour before irrigation or anticipated rain.

STICK-IT Organic™ is not for aquatic use.

SAFETY INFORMATION

Always follow good management practices when handling this chemical. Always wear appropriate safety equipment (goggles, face mask, etc.) when applying **STICK-IT Organic™** or any agricultural chemical.

COMPATIBILITY

STICK-IT Organic™ is compatible with most agricultural chemicals. However, a jar test is recommended before mixing it with other chemicals in large quantities.

Information regarding the contents and levels of metals in this product is available on the internet:

CONDITION OF SALE

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on this label when used in accordance with directions under normal conditions of use. Since weather, crop, soil, and other conditions may vary, Northwest Ag Products, Inc. and/or seller make no warranty of any kind, expressed or implied, concerning the use of this product. The user assumes all risks of use of handling, whether or not in accordance with directions or suggestions.

STICK-IT ORGANIC™

AN EXTENDER-STICKER

INGREDIENTS

Principal Functioning Agent:	
di-1- <i>p</i> -menthene.....	81.8%
Constituents ineffective as adjuvants.....	18.2%
TOTAL.....	100%

Net contents: 2.5 gallons
Weight per gallon: 7.81 lbs.

(509) 547-8234

P.O. Box 3453 • Pasco WA 99301

DIRECTIONS FOR USE

To improve the activity and efficiency of pesticidal sprays, apply 4 to 6 ounces of **STICK-IT Organic™** per acre. To improve the absorption and retention of foliar fertilizers, apply 4 ounces of **STICK-IT Organic™** per acre. For use in air blast sprayers of hydraulic gun sprayers, apply 4 to 8 ounces of **STICK-IT Organic™** per 100 gallons of water. For vegetable crops, apply 4 to 16 ounces of **STICK-IT Organic™** per acre.

Do not apply directly to fruit or vegetable surfaces within 30 days of harvest.

MIXING INSTRUCTIONS

Fill the spray tank half full of water, then add other desired components to the tank while agitating the mixture. Premix **STICK-IT Organic™** with more water and add while the tank continues to fill. Agitate mixture continuously while the tank is filling.

Use clean water to rinse spray equipment immediately after spraying. Though some residue may remain in the tank, it will help prevent rusting and corrosion and will not clog nozzles next time the sprayer is used.

PRECAUTIONARY STATEMENTS

Do not apply this product to non-target surfaces and do not allow spray to drift. Permanent damage may occur on porous surfaces. On non-porous surfaces, remove spray immediately with soap and water while the spray deposit is still wet. Dried deposits on painted car surfaces can be removed using standard tar remover products designed for use on cars.

Do not apply when the weather is hot, windy or wet. Apply only when you are certain that the application will give you the desired result.

Do not allow spray drift or rinse water from spray tank to contaminate surface waters.

CAUTION: KEEP OUT OF THE REACH OF CHILDREN. HARMFUL IF SWALLOWED.
NOT A PLANT FOOD PRODUCT
