GENERAL INFORMATION

MAG-KO-SUL is a liquid plant food containing one primary and two secondary nutrients designed to correct potassium, sulfur and magnesium deficiencies. **MAG-KO-SUL** has a low salt index, so it is ideal for use as a starter or sidedress fertilizer injected in to the soil.

MAG-KO-SUL can be applied to vegetable crops, row crops, deciduous fruit and nut trees, citrus, avocados, grapes, melons, ornamentals, turf, pasture, range grasses and other crops.

CAUTION:

KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Avoid breathing spray mist. May cause irritation of nose, throat, or skin. Avoid contact with eyes, skin, and clothing. Do not contaminate feed and foodstuffs. Do not apply to any area not specified on label. Do not re-use empty container. Wash container thoroughly with water and detergent, puncture, make unusable, dispose of in a safe place. Store out of sun in an area of moderate temperature.

GUARANTEED ANALYSIS

Soluble Potash(K ₂ O).....	4.0%
Magnesium(Mg).....	2.1%
Sulfur(S).....	4.2%

(Derived from potassium magnesium sulfate)

Net Weight 10 pounds/gallon

Manufactured in USA by:
 Northwest Agricultural Products, Inc.

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfc.org/metals.htm>

DIRECTIONS FOR USE

MAG-KO-SUL can be incorporated with other liquid fertilizer or applied separately. This product is most effective when applied through an irrigation system or banded.

MAG-KO-SUL is compatible with acid based fertilizers and other plant nutrients. If unfamiliar with its use be sure to check with Northwest Agricultural Products for compatibility or perform a jar test, mixing each product in the same ratios as to be field applied.

WARNING: **MAG-KO-SUL** is a low pH product and should only be applied with equipment suitable for low pH materials.

Warning: When mixing **MAG-KO-SUL** with **UAN 32**, use one gallon of water per gallon of **UAN 32**

DO NOT use **MAG-KO-SUL** with ammonium thiosulfate (Thio-sul®) or potassium thiosulfate (KTS®). (Thio-sul & KTS are registered trademarks of the Tessengerlo-Kerley Co.)

APPLICATION RATES

Apply 2 to 10 gallons per acre of **MAG-KO-SUL** mixed with compatible fertilizers. Add **MAG-KO-SUL** to a partially filled tank and continue to fill the tank. Allow agitation of the solution to insure uniform mixing. To use **MAG-KO-SUL** alone, apply the following rates if you do not have a soil or leaf analysis:

Minor Deficiency.....2 to 6 gallons per acre

Moderate to Severe Deficiency...6 to 10 gallons per acre

After initial application, monitor petiole potassium levels and apply again if necessary.

If using center-pivot irrigation equipment, use only with electric or oil hydraulic drive systems that provide a uniform water distribution.

SAFETY INFORMATION

Always wear appropriate personal protective equipment (goggles, face mask, rubber gloves, etc.) when handling **MAG-KO-SUL™** or any agricultural product.

Washington State law requires that EPA-approved safety devices be in use when this product is used through any irrigation system.
